

My Interactive Retirement PlannerSM

Help your employees achieve their retirement goals

Nationwide's My Interactive Retirement Planner is an easy-to-use online tool that helps your employees understand whether or not they are on track for retirement. And, it helps them improve and monitor their progress.

Employee benefits

The tool provides a projected retirement income for employees, based on their current account balance. From there, employees can create a personalized plan that answers key questions:

- How much will I have in retirement?
- Is it enough?
- What are my options to improve my retirement outlook?
- How can I stay on track?

How it works

A personalized retirement outlook analysis can be completed in less than 10 minutes. By pre-populating your employees' information, they can easily complete four simple steps to:

- Establish the basics about themselves
- Include their financial assets as well as spousal assets
- Understand their retirement needs and expectations
- Monitor how they're tracking toward their retirement goals

It's that simple. And the tool can be used from a desktop, tablet or mobile device — no need to download and maintain an app!

Nationwide's My Interactive Retirement Planner will help your employees prepare for and live in retirement.
