Retirement Income Analysis

# Are you ready for retirement?

Let a Nationwide Personal Retirement Consultant help you find out.

**A Nationwide Personal Retirement Consultant can provide you with an in-depth analysis to help you understand your income needs and whether you have the resources to meet them.**

When you retire, your financial life may seem a bit more complicated. You'll need to write your own paycheck, make sure it goes up a little each year, and make certain it can continue for 20 to 30 years of retirement. As you can imagine, this is no small task and can result in uncertainty and stress for most people as they transition from working to retirement.

Nationwide offers a Retirement Income Analysis service that can provide you with a snapshot of what your income might look like in retirement. Based on the information you provide, the analysis can give you details of your current situation and help you answer questions such as:

- How much will I need to allocate for health care?
- When should I or my spouse draw Social Security?
- What is the best pension payout option for me?
- What assets should I begin to draw from first?
- How will inflation affect my retirement income stream?
- How will my income be taxed in retirement, and what if I move to another state?

Our Retirement Income Analysis is quick and easy. Plus, our credentialed Personal Retirement Consultants work on salary, not commission. Best of all, the service is available at no additional cost for participants of retirement plans administered by Nationwide.

Suggestions generated by the Retirement Income Analysis Service are based on information provided by the participant.

To receive your in-depth Retirement Income Analysis, call 1-866-975-6363 or email [INVESTNW@nationwide.com](mailto:INVESTNW@nationwide.com).
